

IN THE SPECIFICATION

Please amend the paragraph at page 21, line 21, to page 22, line 2 as follows:

After the apparatus takes an idle state in Step ST-A4, A12 or A13, the user may operate the unit 46 to turn off the apparatus, in Step ST-G1 as is illustrated in FIG. 10. Then, in Step ST-G2, the SID of the base station seized and the frequency f assigned at which the apparatus receives the SID are stored into the MRU region of the RAM 44. Thereafter, the control process is performed, turning off the mobile radio communication apparatus, in step ST G3.
